

StorTrends® 1300 Overview

Please refer to the StorTrends® 1300 User's Guide for detailed information.

The diagram shows the front view of the StorTrends 1300 server. It features three SATA drive bays (Disk0, Disk1, Disk2) and a Slim DVD-ROM Drive (Disk3). The control panel includes a UID (Unit Identifier) LED, Universal Information LED, two NICs (NIC1, NIC2), an HDD (Hard Drive Drive) LED, a System Reset button, and a Main Power button. Internal components like the CPU, Fans, and NICs are also labeled.
